

ASSIGNMENT - 5

DAY-5 19th June,2026

PROBLEM-1

Q.No	Line No.	Error	Error Type	Correction
1	15	i<=10 causes array out of bounds	Runtime Error	for(int i=0;i<10;i++)
2	25	sum = numbers[i] overwrites sum	Logical Error	sum += numbers[i];
3	33	Integer division in average	Logical Error	average = sum / 10.0;
4	35	%d used for float variable	Format Specifier Error	printf("Average = %.2f\n", average);
5	45	Wrong condition for highest marks	Logical Error	if(marks[i] > highest)
6	61	attendance[5] out of bounds	Runtime Error	Remove statement or increase array size
7	65	i<=5 accesses invalid index	Runtime Error	for(int i=0;i<5;i++)
8	75	subject array too small for ComputerScience	Runtime Error	char subject[20];
9	83	branch = "IT" invalid assignment	Syntax Error	strcpy(branch,"IT");
10	96	college string not null terminated	Logical Error	college[5]='\0';
11	104	fees["two"] invalid index	Syntax Error	Use integer index
12	106	fees[3.5] invalid index	Syntax Error	Use integer index
13	124	scanf missing & operator	Syntax Error	scanf("%d",&result[i]);
14	140	Assignment used in if condition	Logical Error	if(stock[2] == 300)
15	149	Array assignment not allowed	Syntax Error	Copy elements using loop
16	159	%d used for float salary	Format Specifier Error	printf("%.2f\n", salary[0]);
17	165	i<=5 causes array out of bounds	Runtime Error	for(int i=0;i<5;i++)
18	181	city array too small for JaipurCity	Runtime Error	char city[11];
19	189	Array assignment not allowed	Syntax Error	Copy inventory into count using loop
20	197	Missing semicolon after printf	Syntax Error	printf("Program Ended\n");

PROBLEM-2

Q.No	Line No.	Error	Error Type	Correction
1	6	Missing semicolon after array declaration	Syntax Error	int marks[5]={80,90,70,60,50};
2	12	i<=5 causes array out of bounds	Runtime Error	for(int i=0;i<5;i++)
3	22	Integer division in average	Logical Error	average = total / 5.0;
4	24	%d used for float variable	Format Specifier Error	printf("Average = %.2f\n", average);
5	34	scores[5] out of bounds	Runtime Error	Remove statement or increase array size
6	44	subject array too small for Programming	Runtime Error	char subject[20];
7	52	attendance["one"] invalid index	Syntax Error	Use integer index
8	54	attendance[2.5] invalid index	Syntax Error	Use integer index
9	64	i<=5 causes out of bounds	Runtime Error	for(int i=0;i<5;i++)
10	76	scanf missing & operator	Syntax Error	scanf("%d",&arr[i]);
11	91	grade[0] = "A" uses string instead of char	Type Error	grade[0] = 'A';
12	94	String not null terminated	Logical Error	grade[2]='\0';
13	100	Assignment used in if condition	Logical Error	if(prices[2] == 300)
14	109	Array assignment not allowed	Syntax Error	Copy using loop
15	119	%d used for float salary	Format Specifier Error	printf("%.2f\n", salary[0]);
16	127	city = "Jaipur" invalid	Syntax Error	strcpy(city,"Jaipur");
17	137	i<=5 causes out of bounds	Runtime Error	for(int i=0;i<5;i++)

PROBLEM-3

Q.No	Line No.	Error	Error Type	Correction
1	19	Integer division used for average	Logical Error	average = total / 5.0;
2	39	Wrong condition for lowest marks	Logical Error	if(marks[i] < lowest)
3	59	i<=5 accesses attendance[5]	Runtime Error	for(int i=0;i<5;i++)
4	69	subject array too small for Programming	Runtime Error	char subject[20];
5	77	Incorrect scanf for string	Syntax Error	scanf("%s", branch);
6	92	fees[5] out of bounds	Runtime Error	Remove statement or increase array size
7	104	Assignment used in if condition	Logical Error	if(stock[2] == 30)
8	113	Array assignment not allowed	Syntax Error	Copy elements using loop
9	123	%d used for float value	Format Specifier Error	printf("%.2f\n", salary[0]);
10	133	scanf missing & operator	Syntax Error	scanf("%d", &result[i]);
11	149	city = "Jaipur" invalid	Syntax Error	strcpy(city,"Jaipur");
12	157	inventory["one"] invalid index	Syntax Error	Use integer index
13	159	inventory[2.5] invalid index	Syntax Error	Use integer index
14	169	i<=5 causes out of bounds	Runtime Error	for(int i=0;i<5;i++)
15	183	college string not null terminated	Logical Error	college[5]='\0'; and increase size
16	195	Array assignment not allowed	Syntax Error	Copy inventory into count using loop
17	203	course array too small for Computer	Runtime Error	char course[10];
18	213	i<=5 causes out of bounds	Runtime Error	for(int i=0;i<5;i++)
19	229	Missing semicolon after return 0	Syntax Error	return 0;

PROBLEM-4

Q.No	Line No.	Error	Error Type	Correction
1	15	i<=10 causes array out of bounds	Runtime Error	for(int i=0;i<10;i++)
2	25	sum = numbers[i] overwrites sum	Logical Error	sum += numbers[i];
3	33	Integer division in average	Logical Error	average = sum / 10.0;
4	35	%d used for float	Format Specifier Error	printf("Average = %.2f\n", average);
5	45	Finding lowest instead of highest	Logical Error	if(marks[i] > highest)
6	61	attendance[5] out of bounds	Runtime Error	Remove statement or increase array size
7	65	i<=5 accesses invalid index	Runtime Error	for(int i=0;i<5;i++)
8	75	subject array too small	Runtime Error	char subject[20];
9	83	branch = "IT" invalid	Syntax Error	strcpy(branch,"IT");
10	96	college string not null terminated	Logical Error	college[5]='\0';
11	104	fees["two"] invalid index	Syntax Error	Use integer index
12	106	fees[3.5] invalid index	Syntax Error	Use integer index
13	124	scanf missing &	Syntax Error	scanf("%d",&result[i]);
14	140	Assignment in if condition	Logical Error	if(stock[2] == 300)
15	149	Array assignment not allowed	Syntax Error	Copy elements using loop
16	159	%d used for float salary	Format Specifier Error	printf("%.2f\n", salary[0]);
17	165	i<=5 causes out of bounds	Runtime Error	for(int i=0;i<5;i++)
18	181	city array too small for JaipurCity	Runtime Error	char city[11];
19	189	Array assignment not allowed	Syntax Error	Copy inventory into count using loop
20	195	Missing semicolon after printf	Syntax Error	printf("Program Ended\n");

PROBLEM-5

Q.No	Line No.	Error	Error Type	Correction
1	6	Missing semicolon after array declaration	Syntax Error	int marks[5] = {80,90,70,60,50};
2	12	Loop condition i<=5 accesses marks[5]	Runtime/Logical Error	for(int i=0;i<5;i++)
3	22	Average calculated using integer division	Logical Error	average = total / 5.0;
4	24	Using %d for float	Format Specifier Error	printf("Average = %.2f\n", average);
5	36	scores[5] out of bounds	Runtime Error	Remove or increase array size
6	50	subject[5] too small for Programming	Runtime Error	char subject[20];
7	58	attendance["one"] invalid index	Syntax Error	Use integer index
8	60	attendance[2.5] invalid index	Syntax Error	Use integer index
9	70	Loop condition i<=5	Runtime Error	for(int i=0;i<5;i++)
10	84	scanf missing &	Syntax Error	scanf("%d",&arr[i]);
11	99	grade[0] = "A"	Type Error	grade[0] = 'A';
12	104	grade string not null terminated	Logical Error	grade[2]='\0';
13	110	Assignment used in if	Logical Error	if(prices[2] == 300)
14	119	Array assignment not allowed	Syntax Error	Copy elements using loop
15	129	Using %d for float	Format Specifier Error	printf("%.2f\n", salary[0]);
16	135	city = "Jaipur"	Syntax Error	strcpy(city,"Jaipur");
17	145	Loop condition i<=5	Runtime Error	for(int i<5;i++) -> for(int i=0;i<5;i++)
